Top 25 Institutions by High School Class

Top 25 Colleges Your Students First Attended Within Two Years After Leaving High School

This report is meant to show you the top 25 colleges/universities that your students first attended within two years after graduating or leaving high school. The report 1) tracks the students' postsecondary progress over the next eight years to show you whether the student was retained at that same college in *year two* or whether the student transferred to a different school in *year two*, and 2) shows the number of degrees/certificates that the student earned from that college.

The counts in this report will help you determine whether the college that the student chose to first attend was a good fit for the student.

There is a 3-page report for each of the high school classes that you have submitted for the most recent eight years. This allows you to compare the different high school classes to see how your high school's college readiness efforts are working year over year.

More in-depth information about this report can be found on the StudentTracker [Help](#) website.

NOTE: The counts in the Top 25 report will reconcile to the students reported in the student-level detail report. This means that counts of students who have blocked their records are not included in the Top 25 report.
